

450mm Arrow Socket In-Ground Sign Post Mount

Product Images

Description

Arrow Socket In-ground Sign Post Mounts (commonly called Wizard Sockets) are a time-saving and cost-effective solution with no need for excavating, digging holes, or additional time for mixing and supplying concrete.

- Designed for use with our 60 ODI (50NB) Galvanized Sign Posts.
- Perfect for both temporary and permanent applications.
- Simply drive the Arrow Socket into the soil or soft asphalt, slide your Sign Post into the Arrow Socket Sleeve and secure it with the fixing Wedge provided.
- Made from Galvanized Steel.
- 600mm lengths are also available.
