

Loc Socket Pole Mount System

Product Images

Description

Our revolutionary Loc Socket post mounts are the perfect solution for mounting sign poles in concreted areas.

- They are mounted flush in concrete at ground level and can be covered with Snap-Caps for later use.

- Loc-Sockets allow damaged sign posts to be easily removed without the hassle of digging up concrete footings.
- Reusable post footing device, easy to remove damaged posts.
- Safely mounted flush in concrete, safely covered with Snap-Cap when not in use.
- Heavy duty galvanized steel collar, plated steel wedge pin included.
- Use with 60 ODI (50mm NB) posts for traffic signs, etc.
- **Made in Australia**
