

Posthaste Pole Mount

Product Images

Description

PostHaste Sockets allow damaged sign posts to be easily removed without the hassle of digging up concrete footings.

- They are mounted flush in concrete at ground level and can be covered with Snap-Caps for later use.

- PostHaste Sockets are made entirely of durable plastic for ease of handling and economy.
- Reusable post footing device.
- Safely mounted flush in concrete.
- Durable plastic construction.
- Used with fence posts.
- Used with traffic sign posts.
- **Made in Australia**
