Product Images

Description

This tool is tailored to meet the specific needs of the transportation, energy, industrial, marine and government markets.

- **Banding Tool suits both 13mm and 19mm strap.**

Finding the right Stainless Steel Strapping System for you is easy following the below steps:

Step 1: Choose your designed stainless steel Banding Strap width, 13mm or 19mm.
Step 2: Based on your banding strap width choice, choose the required 13mm or 19mm Banding Buckle. (1 x Banding Buckle required per strap)
Step 3: Choose your required 13mm or 19mm Banding Bracket. (1 x Banding Bracket required per sign hole)
Step 4: Use the specially designed Banding Tool to tighten your system together. (Banding Tool suits both 13mm and 19mm strap)
