

Pinnacle™ Yellow Lens Safety Glasses

Product Images

Description

The Pinnacle™ range of safety glasses brings fashion, comfort, and protection to safety eyewear. With a sleek design, the Pinnacle is lightweight with soft temple tips providing high-level comfort for all-day wear. Featuring exceptional coverage to ensure optimum safety at work, the Pinnacle's high gloss black and red temples deliver a stylish look, that workers will want to wear both at work and outside of work. **Yellow lenses** are very effective in "blue light" environments such as LED and fluorescent lighting. Yellow lenses in these kinds of environments enhance contrast and depth perception making them helpful for work where small details are important.

- Complies to AS/NZS 1337.1:2010 Medium Impact.
- Lightweight and comfortable with a stylish modern design. 100% dielectric with no metal parts.
- Combined Anti Fog & Hardcoat lens provides optimal visual clarity in humid environments whilst reducing scratches and extending lens life.
- **A5219 Positive Protective Dust Seal** is available separately for the Pinnacle glasses which can be fitted for use in high particulate and dusty work environments.
