Heavy Duty 350mm Road Spike (Extra Long)

Product Images

Description

This easy to use and versatile road spike anchor fixes our range of Rubber and Plastic Wheel Stops. Designed for use on bitumen and surfaces with loose aggregate that requires the most extreme fixing. Simply use hammer or mallet. No drills or other equipment needed. (Not suitable for concrete.)

- 350mm long/ 12mm wide - for the deepest penetration available.
- Coated steel will not rust or weaken over time.
- Our Road Spike is at least twice as long as anything else on the market.
- For use with Rubber and Plastic Wheel Stops.
