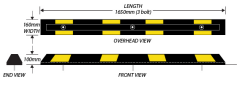
Rubber Wheel Stop

Product Images



Description

These recycled rubber wheel stops (also known as parking blocks) are great for all parking areas. Designed to avoid damage to property and/or vehicles, use them as parking blocks, roadside kerbs or to replace broken concrete kerbs.

- Complies with AS2890.1:2004.
- Suitable for both indoor and parking environments
- Wheel Stops will not chip, rot, warp or develop cracks

- Highly reflective tape ensures maximum visibility, and will not peel or crack
- Dimensions: Length 1650mm x Width 160mm x Height 100mm.
- Weight = 15.1kg
- **Fixings/bolts sold separately - We recommend the Sleeve Anchor Bolt (A4469) for concrete and Road Spike (A1543) for bitumen applications.**
- 3 fixings required per wheel stop.
