

Docking Guard

Product Images

Description

Attach to loading docking areas to protect and cushion against accidental bumps. This versatile, tough, and weather-resistant rubber guard can be used as a bumper in water situations as well when attached to docks to protect boats and yachts.

- A durable rubber guard will absorb multiple impacts.
- Will not cause damage to walls, vehicles or boats.
- Dimensions: 1000(L) x 100(W) x 100(H)mm
- Weight: 9kg
- 3 bolts required per piece, not included. We commend the [A4467 Sleeve Anchor Bolt](#) for concrete fixing to loading and shipping docks.
