Irrigation Eye Wash Bottle 250ml

Product Images

Description

This **portable bottle** is suitable for flushing the eyes in emergency situations to remove dirt, dust and small particles quickly and easily.

This device is ideal for all industrial markets, offices, first aid areas, OH & S, and for personal use.

- Product has a **built-in eye cup with a snap-on cover** to keep the bottle clean and ready for use.
- Unique design allows used eyewash to exit through the **reservoir drain tube** preventing it from going back into the bottle.
- **To use:** Place eye cup over the eye and squeeze the bottle to provide a gentle irrigating shower to the affected eye (please read product instructions provided upon purchase).
- The bottle is supplied empty. **Bottle must be filled with a sterile saline solution.**
