

Tobin Portable Eye Wash Bottle - With Stand

Product Images

Description

This Tobin Portable Eyewash System provides an effective and sterile flushing system to remove irritants from the eyes. We recommend this product for use in transport vehicles holding dangerous goods as cargo (as required by the Australian Dangerous Goods Code).

Dangerous substances in the eye can cause serious damage within 1 - 5 seconds. This eyewash bottle is **conveniently hand-held** and can be located within arms reach to **reduce response time in an emergency**.

- **500ml sterile saline solution.**
- Soft flow design that produces **6 streams of saline solution.**
- **3-year shelf life.**
- Product dimensions: 27cm (Height) x 10.5cm (Width) x 10cm (Diameter).
- Quick Release Mounting Stand **is included.**
- Product is intended for short term relief only. Must be used in conjunction with a primary Emergency Wash Station to comply with Australian Standard.
