1

## **Description**

Wall-mounted Emergency Shower unit with triangular **pull rod** and **stay open valve**.

- Delivers up to **160 Litres** of aerated water **per minute**.
- Unique impeller action aerates the water.
- Improves face/body coverage area and eliminates water voids to provide a complete and effective spray.
- **Hi-Vis shower head** can be seen easily, saving vital seconds in an emergency.
- Complies with and exceeds both AS2775-2007 and ANSI Z358.1 1998.
