SAFETY

Pedestal Mounted Eye/Face Wash Station (Hand Operation)

Product Images

Description

This pedestal mounted eye and face wash station guarantees a gentle and effective irrigation system, to wash away hazardous material from the eye and face regions.

- 304 **Stainless Steel** Pedestal Frame - free standing.
- Stainless Steel bowl.
- Complete with 12mm chrome-plated brass, full-flow ball valve.
- **Hand operated** for immediate action in an emergency.
- **Aerated water** supply.
- Dual Soft Spray Heads deliver up to **30 litres** aerated water per minute.
- Flow Pressure is 136 KPa and flow rate 36LPM - must be connected to uninterrupted source of water (min flowing pressure 130KPa, max flowing pressure 860 KPa).
- **Dust caps** protect the heads when not in use.
- The eye-wash unit is activated by pushing the paddle handle rearwards 90 degrees. The unit will operate until the paddle handle is manually pulled back to the off position.
- Meets requirements set by relevant Australian Standard AS4775 related to ANSI Z358.1.
- Maintenance should be carried out weekly (to flush the line and ensure operation) and yearly as specified in Australian Standards.
