

Evacuation Alert Megaphone

Product Images

Description

The evacuation alert megaphone combines all the usual features of standard megaphones with the addition of the alert/evacuation tone generator that allows the broadcast of alert and evacuation tones.

- Tone generator broadcasts alert and evacuation tones that **comply with Australian Standard AS1670.1.**
- Powerful 18W amplifier and **efficient voice coil** provide industry-leading range and volume.
- **Powerful megaphone projects voice over 100m in outdoor conditions.**
- Product is lightweight and simple to operate.
- Requires 8 x C batteries (not included).
- Please note: Colour of megaphone may vary from picture.
