

# Wall Mounted Outdoor Eye/Face Wash Station (No Bowl)

## Product Images

## Description

---

This wall-mounted emergency eye and face wash station effectively removes contaminants from the delicate soft membrane areas more efficiently and safely.

- Delivers up to 36 litres of water per minute.
- **The low-velocity curtain of aerated water** provides a soft and gentle scrubbing action.
- Supplied with a stay-open full flow ball valve.
- Activated by 90-degree push motion on the **stainless steel push handle**.
- Features an in-line strainer and heavy-duty wall mounting plate.
- The spray pattern is easily controlled at any pressure for maximum protection.
- Meets requirements set by relevant Australian Standard AS4775 related to ANSI Z358.1.
- Please note, as with any emergency flushing unit, maintenance is required on a weekly (to flush line and ensure operation) and yearly basis as specified in Australian Standard AS 4775-2007.

\*Item shipped flat-packed. Minor assembly required.
