

Aqua Stop Water Filled Barrier

Product Images

Description

The original Australian designed & manufactured Aqua Stop Heavy Duty Barrier tested to AS/NZ 3845/1999. The aqua stop has been tested by leading Testing Authority - Monash University, Dept of Civil Engineering and excelled at the impact tests. The Aqua Stop barrier features a simple interlocking system using a pin. The barriers are fitted with retro reflective tape and have two apertures topside for placement of hazard lights, pole signage or extended mesh fencing.

Applications

- Pedestrian Safety Barrier
- Road works
- Road closures.
