

Wall Mounted Steel Bowl Eye/Face Wash Station

Product Images

Description

This wall-mounted eye and face wash station is a classic addition to workplace eye safety. Using soft aerated water, this unit efficiently and safely removes contaminants from the delicate, soft membrane areas of the eyes and face.

- Emergency eye/face wash station for wall mounting.
- Supplied with **stainless steel bowl** and stay-open full flow ball valve.
- Activated by **stainless steel push handle** with in-line strainer, and heavy-duty wall mounting plate.
- The spray pattern is a low-velocity curtain of **aerated water** that washes eyes and face contours gently.
- Easily controlled at any pressure for maximum protection.
- Delivering up to **36 litres per minute** to provide a peroxide scrubbing action.
- Compliant with Australian Standard AS 4775-2007 and the ANSI/ISEA Z358.1 standard & OSHA.
- Check WHS Laws and Regulations in your State or Territory regarding product positioning and maintenance requirements.

*Item shipped flat-packed. Minor assembly required.
