

Wall Mounted Eye/Face Wash Station

Product Images

Description

This wall-mounted eye and face wash station is a classic addition to workplace eye safety. Using **soft aerated water**, this unit allows the user to comfortably flush eyes for the ANSI recommended 15 minutes.

- This product is made to withstand even the hardest of working environments.
- Emergency eye/face wash station for **wall or counter mounting (wall mount bracket included)**.
- Supplied with a **round, stainless steel bowl**.
- Features stay-open full flow ball valve and chrome plated waste tailpiece.
- Activated by a **stainless steel push handle**.
- Includes in-line strainer, and heavy-duty wall mounting plate.
- The spray pattern is a low-velocity curtain of **aerated water** that washes eyes and face contours gently.
- Easily controlled at any pressure for maximum protection.
- Delivering up to **36 litres per minute** to provide a peroxide scrubbing action.
- Independent laboratory accreditation to Australian Standard AS 4775-2007 and compliant with the ANSI/ISEA Z358.1 standard & OSHA.
- Check WHS Laws and Regulations in your State or Territory regarding product positioning and maintenance requirements.

*Item shipped flat-packed. Minor assembly required.
